

Price List Master — Architecture

How Tax Master, SKU Master and Assignment levels combine to drive invoice pricing

Price List Resolution Logic

Step-by-step decision flow applied at invoice creation to determine the correct price list

IMPORTANT RULES FOR DEV TEAM

Default cannot be removed

System must enforce one active default at all times.

Show resolved list on invoice

Rep must see which price list was applied and why.

Effective date is mandatory

Expired price lists skipped; next hierarchy level used.
